

#### POLICY OF DRIVEWAY INSTALLATION & MAINTENANCE:

The City is not responsible for installing or maintaining private or business driveways. The City's responsibility ends at the intersection of the street and driveway surfaces. The City will not contract any work for installing or maintaining driveways; this is the responsibility of the property owner. If a culvert installation is requested of the city, the city will only repair the removed section of any driveway, with gravel (no other material will be supplied by the city). The property owner will be responsible to replace any driveway covering (concrete, asphalt, etc.) (See the policy for culvert installation for further information on culverts.)
